

	<p><b>BDP Industries.</b> 3DP™ three-belt dewatering presses, gravity belt thickeners, rotary drum thickeners, screw presses. In-vessel agitated bay composting &amp; bio-drying systems.</p>
	<p><b>Binder Group.</b> VACOMASS® energy saving, low pressure drop air control system, featuring jet control valves, square or elliptical diaphragm control valves &amp; thermal dispersion flow meters.</p>
	<p><b>CMI Environment.</b> Odour control &amp; VOC treatment biofilters, bioscrubbers, activated carbon towers, stripping systems.</p>
	<p><b>Cornell Pump Company.</b> Complete line of centrifugal pumps, including water booster, dry pit non-clog, immersible, submersible, chopper, cutter, STX &amp; STL self-priming &amp; sludge pumps.</p>
	<p><b>Cy-Bo Plastics.</b> Custom designed plastic products for air treatment &amp; water treatment applications. Single or double walled plastic tanks for chemical storage.</p>
	<p><b>Enaqua.</b> In-line &amp; in-channel energy efficient non-contact ultraviolet disinfection systems with smart non-amalgam lamps, AFP™ tubes, intelligent monitoring &amp; control system. Third party tested &amp; validated for CA Title-22 certification.</p>
	<p><b>Eurus Blower.</b> Tri-lobe ZG Series, bi-lobe MG &amp; ZZ Series positive displacement blowers &amp; vacuum pumps.</p>
	<p><b>Flottweg Separation Technology.</b> Decanter centrifuges for alum &amp; biosolids sludge thickening/dewatering &amp; solid-liquid separation applications. Simp Drive® independent, automatic scroll speed control. Recuvane® drive energy recovery system.</p>
	<p><b>Gooch Thermal Systems.</b> Spiral heat exchangers, digester sludge heaters. <b>Plate Concepts.</b> MODU-FLEX™ plate &amp; frame heat exchangers.</p>
	<p><b>Headworks International.</b> MS Series bar screens, Perforator® screens, Eliminator™ band screens, conveyor-compactors. ActiveCell™ MBBR/IFAS process systems &amp; media. Anaerobic MBBR systems.</p>
	<p><b>Kusters Water.</b> Clarifier mechanisms, ProTechtor™ family of vortex grit removal systems, travelling bridge collectors, grit classifiers, fine screens &amp; washer compactors, Terminodour™ ionisation odour control systems.</p>

	<p><b>Nexom.</b> optAER® lagoon aeration, SAGR™ cold climate nitrification, infini-D™ cloth disk filters, BluePRO® reactive filters for phosphorus removal, BlueNITE™ denitrification systems, EcoBELT™ rotating belt filters.</p>
	<p><b>Olympus Technologies.</b> Fixed &amp; gasholder digester covers, mechanical draft tube sludge mixers, tube-in-tube heat exchangers.</p>
	<p><b>OTT North America.</b> High performance, energy efficient MAGNUM® tube diffusers with FLEXSIL® silicone membranes, D-Rex® disk diffusers &amp; AirRex® piping system.</p>
	<p><b>Philadelphia Mixing Solutions.</b> Vertical mixers, flocculators &amp; aerators with purpose built drives. ARI2 ragging resistant, high-efficiency impeller for improved solids distribution. Raptor™ directional aerators. Aero-Brush™ brush aerators.</p>
<p><b>PillAerator</b></p>	<p><b>PillAerator.</b> Self-contained, high-speed turbo blowers with magnetic bearings &amp; smart controls, designed for low energy consumption &amp; reliability, adapts to several processes.</p>
	<p><b>Premier Tech Aqua.</b> Ecoprocess™ SBR systems with floating decanter &amp; hybrid control strategy. Ecoprocess™ MBR, Ecoprocess™ MBBR, Segflo™ recirculating biotowers for wastewater treatment.</p>
	<p><b>Prime Solution.</b> Rotary Fan Press® low-shear, enclosed dewatering device with optional patented internal mixing element, available in various sizes. Rotary Fan Screw Press® combines the fan press with a compression zone &amp; screw press technology.</p>
	<p><b>R.P. Adams.</b> Automatic self-cleaning strainers, shell &amp; tube heat exchangers, multi-element pre-coat filter systems, cyclone separators, compressed gas &amp; steam filters.</p>
	<p><b>Rodney Hunt.</b> Cast iron &amp; stainless steel slide gates, channel gates, weir gates &amp; stop logs. Stainless steel knife gate valves.</p>
	<p><b>Sapphire Water International.</b> Reverse osmosis, ultrafiltration, nano-filtration membrane systems, SIBROM biological filtration. MBBR treatment plants. Filtralite® granular filtration media.</p>
	<p><b>Spiralengineering.</b> Manufacturer of shaftless &amp; shafted screw conveyors, live bottom bins, compactors, dewatering presses, grit separators, classifiers, spiral mixers.</p>

 <p><b>Swaby LOBELINE™</b></p>	<p><b>Swaby Lobeline.</b> Rotary lobe pumps for sludge &amp; other fluids. Heavy duty pumps for demanding service requirements.</p>
	<p><b>Tank Connection.</b> Bolted RTP steel &amp; stainless steel tanks &amp; silos, LIQ Fusion 7000 FBE™ advanced fusion bond coating system or Aqua AGT 2020™ glass-fused-to-steel coating system, aluminum flat &amp; geodesic covers.</p>
	<p><b>TwinOxide USA.</b> Unique advanced water disinfection system. Delivered as a powder kit of two components, it produces 99% pure chlorine dioxide in a safe 0.3% solution.</p>
 <p><b>VA Teknik Sweden</b></p>	<p><b>Hydria Water/VA Teknik Sweden.</b> Non-metallic chain &amp; flight sludge collectors for rectangular clarifiers, manually &amp; automatically operated scum pipes.</p>
	<p><b>Watropur.</b> WATROMAT® screw presses, batch &amp; belt dried air sludge dryers for filter cake, slurry &amp; sewage sludge.</p>
